

14th Annual North West Pool Managers Aquatics Seminar

Friday 21st May, 2010
Broome Aquatic and Recreation Centre

The Department of Sport and Recreation, Leisure Institute of Western Australia Aquatics, Royal Life Saving Society Australia and the Shire of Broome would like to invite aquatic managers and shire staff across the North West to attend the 14th Annual North West Pool Managers Aquatics Seminar.

The event will highlight issues relevant to aquatic centres in the region. It also provides a great opportunity to share the knowledge and information that exists throughout the regions and the aquatic industry.

Department of
Sport and Recreation

LIWA Aquatics with its industry partners, Royal Life Saving and the Department of Sport and Recreation, are aware of the critical need to provide professional development opportunities in regional areas. It is important that both local and global issues are discussed and networks are developed and maintained.

As managers we need to ensure that our aquatic facilities remain the focal point of our community. It is very hard to achieve this in isolation – we must work together.

The seminar will present information on:

- ❑ Facilities – New & Upgrades
- ❑ Department of Sport and Recreation Opportunities and Funding
- ❑ Leading strategies for dealing with critical incident
- ❑ How to update or create Operations Manual
- ❑ Pool Plant Operations – maintenance on pumps, filters & dosing equipment
- ❑ Managing the North West conditions, environment & animals
- ❑ Review including Code of Practice, Training, Funding & WAW
- ❑ VET – Validation of Pool Lifeguard and Pool Operations and Future Training
