LIWA Aquatics conducts several seminars and an Annual State Conference each year. The North West Seminar is held in the northern regions of Western Australia. It is held around the start of the off season around May each year.

The Country Pool managers Seminar is commonly held around the Mid Eastern to southern regions of WA. It is usually held around October each year prior to startup of the swimming season for country areas.

The Annual State Conference and Trade Display is our biggest event of the year with approx 200 delegates and up to 50 trade displays held over a two day event. It has been held in various areas around metro Perth but has been home at Fremantle since 2004. It is held around mid August each year.
